Tashkent Medical Institute recently held graduation exercises for 111 young doctors. Forty-two were native Uzbeks. The majority of the graduates will be assigned to rayon hospitals in Uzbekistan. Eleven however are slated for assignment at Kara-Kalpaku.

Special courses in bone-tuberculosis therapy are being given in Tula. The courses are available to surgeons in all the rayons of the oblast.

The Molotov State Medical Institute is calling for applicants to fill several vacancies. Among these are: deputy chief for the Chair of Psychiatry, deputy chief for the Chair of Medical Physical Exercise, and a docent for the Chair of Pharmacology. There are also several openings for candidates for degrees in microbiology, normal anatomy, epidemiology, and pharmacology. There are also several openings for clinical-hospital surgeons in the Chairs of therapy, surgery, gynecology, eye diseases, nervous diseases, infectious diseases, and pediatrics.

A well-equipped tuberculosis sanatorium is flourishing in the forest close to Sloboda in Ryazan Oblast. The establishment is intended primarily for children. There are 60 beds for those suffering from pulmonary tuberculosis and 200 beds for those afflicted by bone tuberculosis.

In issue No 819 of Meditinskij Rabotnik, strong criticism was directed against the methods employed in teaching students at the Central Dentistry School. The Ministry of Public Health RSFSR acted on the criticism and investigated. As a result, Berezinskaya, Deputy Chief of the School, and Količ, an instructor, were relieved from duty while Khasin, USMUZ, and Bykov, Director of the School received a severe reprimand. Instruction has been improved.

The medical unit at the Waggon Construction Factory imeni "Pravda" has been reinstated with all types of specialists. Workers of the Metallurgical Factory imeni Ivershinskij have a new polyclinic. There has been an enormous increase in
